

## Cleaning Your Grow

Cleaning is one of the most important steps you take to eliminate pathogens in your garden. **Athena® Reset** and **Athena® Perafoam** were developed to give you a clean start going into every run. Use the Athena® Clean Line in between cycles to clean, disinfect, and sanitize tables, floors, trellis, irrigation lines; any hard surface you or your plants come in contact with. Follow the procedures below in between runs to ensure you start clean every time!

After harvesting a room, ensure all debris is cleared out of the room. The room can then be heat treated, bringing the internal temperature to 140°F (60°C), if possible.

## RESET (non-foaming spray application)

<b>1 Add</b>	Add <b>Athena® Reset</b> into a sprayer at a rate of 1 fl oz per gal of water.
<b>2 Spray</b>	Spray all hard surfaces to sanitize and disinfect.
<b>3 Hold</b>	Does not need to be rinsed away.

## OTHER FOAMER SYSTEMS

<b>1 Add</b>	Add <b>Athena® Perafoam</b> at a rate of 1 fl oz per gal of water.
<b>2 Add</b>	Add <b>Athena® Reset</b> at a rate of 1 fl oz per gal of water.
<b>3 Mix</b>	Mix the solution thoroughly.
<b>4 Adjust</b>	Use manufacturer's recommendations to adjust foamer settings for the desired foam characteristics.
